•  
monitoring

**NEW PRODUCT RELEASE**

**PKIT-MANSC10**

### Class Leading Features & Performance

- Quality heavy duty carry case with water-cut foam inserts for all individual contents
- Kits are supplied with quality adaptors, test points, seals, and a 1.5 meter microbore test hose (>600 bar)
- The kit features the latest high quality KOBOLD MAN-SC10 digital pressure gauge which includes the following key features...
- 5-digit, 14 segment alpha numeric LCD display with 16mm digit height for clear indication
- Capacitive touchpads
- Peak memory
- Selectable measuring units
- Force value calculation
- Tara function
- Stainless steel process connection
- Power supply via 9 V block battery  
Battery life: up to 2 ½ years with lithium

#### Kit Part Codes...

PKIT-MANSC10-G2-XX-000 (replace XX with the pressure range code you require)

A5 = -1...+15 bar

C1 = 0...60 bar

C4 = 0...250 bar

C6 = 0...400 bar

*Note! There are 28 pressure sensor ranges available from -0.6...0 bar to 0..1600 bar. For the MAN-SC product datasheet and video please visit [www.kobold.com](http://www.kobold.com) search MAN-SC and click on the instrument image.*

*Bear-in-mind, your preferred measuring units relative to the sensor range can be simply selected in the instrument menu.*
